E-SOLUTIONS USA, LLC
Solutions For Yesterday's Technology

E-SOLUTIONS USA ASSET RECOVERY SOLUTIONS

E-Solutions USA offers unparalleled remarketing services incorporating whole system sales and parts salvage. All remarketed equipment goes through a security process where tags and labels are removed. In addition, data is removed according to your specific needs.

E-SOLUTIONS USA ASSET MANAGEMENT SOLUTIONS

E-Solutions USA can assist you in this process by offering a custom analysis and forecast of the current values and anticipated expenses associated with your organizations electronic assets.

E-SOLUTIONS USA DATA SECURITY SOLUTIONS

E-Solutions USA offers 4 levels of data treatment. You choose the method that satisfies your organizations needs. These options include physical destruction of hard drives and other media for the ultimate in information security.

E-SOLUTIONS USA

Solutions For Yesterday's Technology

E-SOLUTIONS USA ENVIRONMENT RECYCLING SOLUTIONS

E-Solutions USA recycles all equipment that is unmarketable and all equipment that our customers choose to remove from the market permanently. Recycling consists of complete dismantling and refining of component parts including circuit boards, metal parts and plastics, where possible. CRT and flat panel monitors that have been determined to be scrap are sent to EPA approved and certified recycling facilities. All recycling is done in accordance with NYS DEC and EPA guidelines.

E-SOLUTIONS USA ASSET INVENTORY SOLUTIONS

E-Solutions USA offers state-of-the-art asset management and control. Our trained staff will conduct a physical inventory of all of your assets. A digital database with this information is then made available to you, anywhere and at any time, for your review.

E-SOLUTIONS USA REMOTE ASSET DATABASE SOLUTIONS

E-Solutions USA provides you with our exclusive web-accessible, password protected database designed to supply you with the information you need to quickly track the status of your retired assets.
